To whom it may concern

Following a review of our software requirements, we approached **Administer Software Limited** to adopt their "removals & storage" package, **Move Administer**.

The system was very quick and easy to install. Richard held two days of staff training at our offices in Livingstone and their help desk is always available to handle any queries our staff may have. **Move Administer** is very flexible allowing adaptations to suit our specific needs.

We would have no hesitation in recommending **Administer Software** for their professionalism and quality of services.

Yours sincerely,

Graham Byers
